Profile

Passionate and dedicated BE computer science student with expertise in front-end and back-end web development. Strong foundation in computer science principles. Committed to continuous learning and staying up-to-date with industry trends. Excited to contribute to a dynamic web development team, leveraging technical skills and creativity.

Education

2019/08 – present Mangalore, India	**B.E (Computer Science and Engineering)** *Shree Devi Institute of Technology* Current CGPA : 7.7
2019 Kannur, India	**Higher Secondary - Central Board of Secondary Education** *Amrita Vidyalayam,Kannur* Percentage : 73%
2017 Kannur, India	**High School - Central Board of Secondary Education** *Amrita Vidyalayam,Kannur* Percentage : 86%

Projects

Blog Application
- Built a responsive blog application using ReactJS, allowing users to add, delete, and view blogs.
- Utilized ReactJS, JavaScript, HTML, and CSS to create a modern and intuitive user interface.
- Implemented CRUD functionality for managing blog posts, allowing users to create and delete content.

Tech blog
- Developed a feature-rich blog application using Node.js, Express, and MongoDB, enabling users to add, delete, and view blogs.
- Utilized Node.js and Express to build a robust and scalable server-side application.
- Integrated MongoDB database for efficient data storage and retrieval.
- Implemented CRUD functionality to manage blog posts, allowing users to create, update, and delete content.

Traffic Offensive Management System
- Developed a Traffic Offensive Management System using Javascript, HTML, and CSS as the front-end and MySQL as the back-end database.
- Implemented functionality to store and display traffic offenses made by people.
- Utilized Javascript, HTML, CSS for the user interface design and MySQL for efficient data storage and retrieval.

Discount calculator
The discount calculator is developed using Android Studio. It is used to calculate the discount for the given products.

Skills

Languages : Python, JavaScript, C/C++

Front End : ReactJS, HTML, CSS, JavaScript

Back End : NodeJS

Database : MySQL, MongoDB

Operating System : Windows, Linux(Ubuntu)

Version Control Software : Git

Professional Experience

2023/03   **Full Stack Development Intern**

I attended a one month internship in Full Stack web development at COMPSOFT TECHNOLOGIES Mangalore.

- I worked on a project to design and implement responsive and user-friendly web applications.
- Developed and maintained front-end interfaces using React.js, ensuring high-quality and efficient code.
- Utilized Node.js and Express to build robust and scalable back-end functionalities.
- Integrated MongoDB to manage and manipulate data for seamless application performance.
- Participated in code reviews and actively contributed to the overall improvement of the development process.
- Assisted in troubleshooting and debugging issues to ensure optimal functionality and user experience.

2022/08   **Machine Learning Intern**

Attended a one month internship on Machine Learning using python at PRAGMATIC EMBD SOLUTIONS Bangalore.
